EXPERIENCE

AI Training Contractor

Jan. 2025 – Present

DataAnnotation

Remote

- Reviewed generated code and suggested efficiency, readability, and corrective improvements for over 10 different projects.
- Enhanced the functionality of 3 different in-development LLMs for code review.
- Developed sophisticated, fine-grained, and actionable criteria of over 20 points to judge AI responses to complex prompts.

Opening Lead

Apr. 2020 – Feb. 2023 and Jun. 2024 – Aug. 2024

Marble Slab Creamery

Barrie, ON

- Managed the daily operations of more than 5 people, optimizing for efficiency.
- Prioritized tasks to maintain stock of over 30 different types of items.
- Designed cakes to customer specifications in under 48 hours and resolved any order or customer satisfaction concerns.

PERSONAL PROJECTS

Am I Cooked? | *React, MongoDB, Express.js, Node.js, Vite, Gemini, Vercel, TypeScript, Git*

May 2025

- Developed a full stack web app with 2 peers in under 30 hours.
- Received over 200 responses in under 2 weeks.
- Leveraged the Gemini API to evaluate user survey responses and resume uploads.
- Designed easy-to-use stats page UI for users to make sense of our data collected.

Personal Website | *React, Vite, Javascript, CSS, Vercel, HTML, Git, Github, Copilot*

May 2025

- Developed my website in just over 2 weeks.
- Features responsive UI design and dynamic pages.
- I built a mini-game to make the website even more interactive.
- Modular design allowed for building different features simultaneously on 3+ branches.
- Leveraged over 4 different AI models to help build the site.
