EXPERIENCE

Systems Automation Framework Coop

Summer 2026

SPS Commerce

- Working on production **Kotlin/Spring Boot** services that deliver **1 million+ documents daily**.
- Leading development on an **MCP server** to help developers diagnose issues when using our services.
- Working with **REST APIs** to integrate complex services that must have near 100% uptime.

President, Owner, & Lead Developer

2025 – Present

Montgomery Software Foundry Inc.

Barrie, ON

- Founded my company to sell a **custom SaaS solution** to a wheelchair accessible transit company in the GTA.
- Updated a paper and Excel-based system to an automated online workflow that will **prevent data loss**.
- Documented customer specifications** and developed the custom software in line with the requirements.

PROJECTS

Fleet Maintenance Management System | *Next.js, Supabase, TypeScript*

2025 – 2026

- Created an easy-to-use set of online maintenance tickets stored in a **Postgres database** for simple querying.
- Designed a role-based login system using tokens and **hashed passwords**.
- Leveraged AI to write **unit-tests on edge functions** to ensure reliability in production.
- Secured client data** by constructing the system in compliance with **OWASP top 10**.

Moneyball | *Kotlin, Spring Boot, React*

2026 - Present

- Built a full-stack web app from a custom **Jupyter Notebook** to display advanced MLB analytics.
- Processed **.csv files with 120+ fields with 500+ records** to evaluate baseball games at a pitch level.
- Worked with the official MLB and Statcast APIs to generate **easily digestible insights** based on game events.

Pump Pal | *React Native, Expo, Firebase, Typescript*

2026 - Present

- Developed a workout tracker to minimize injuries and balance workouts using **personalized workout metrics**.
- Leveraged the **Gemini API** to analyze workout history and **generate insights** into the muscles you are working.
- Implemented a simple and easy-to-use interface to make **data digestible** and visually appealing.

EDUCATION

University of Guelph

Guelph, ON

Bachelor of Computing in Computer Science, Minor in Business - 89.2 GPA
